ASX / Media Release

15 August 2007

URANIUM MINERALISATION EXTENDED AT OBAN

Curnamona Energy Limited (Curnamona Energy – ASX : CUY, owned 48.2% by Havilah Resources NL – ASX : HAV) announces that ongoing drilling at its 100% owned Oban project continues to extend the area of significant uranium mineralization (grade thickness > 0.05 m% eU₃O₈) in an area indicated by historic drillhole data. A new area of mineralization has been identified by widespaced drilling in the far west of Mineral Claim 3777 (in drillhole CEY 155) and to the north (see red area on map).

All areas of uranium mineralization so far outlined within Exploration Licence 3181 lie within a 7 kilometre long “prospective zone” that is defined by scattered anomalous results from previous drilling. Thusfar, more than 150 hectares of potentially economic grades of uranium have been defined within the comparatively small portion of the area drilled by Curnamona Energy. In general infill drilling has established continuity between the various higher grade zones, shown in blue on the attached map. Drilling is continuing in the area with the objective of expanding the area of known mineralization.

Curnamona Energy is currently working towards obtaining permitting for a field leach trial to establish the amenability of these sands to in situ uranium recovery methods.

CURNAMONA ENERGY LIMITED

Bob Johnson, Ph.D, FAusIMM, Chairman

The information in this report has been prepared by geologists Dr Bob Johnson and Mr Mark Randell who are members of the Australasian Institute of Mining and Metallurgy and Dr Chris Giles who is a member of The Australian Institute of Geoscientists. Drs Johnson and Giles are employed by the Company on consulting contracts and Mr Randell who is employed full time as General Manager. They have sufficient experience which is relevant to the style of mineralization and type of deposit under consideration to qualify as Competent Persons as defined in the JORC Code 2004. Drs Johnson and Giles and Mr Randell consent to the release of the information compiled in this report in the form and context in which it appears.

Enquiries should be directed to Dr Bob Johnson, Chairman, on (08) 8338 9292
